APPLICATION

The !Nara plant is endemic to Namibia and grows in the dry desert region along the Atlantic coastline. Almost lime green in colour, this thorny creeper bears spiky fruits which are highly nutritious and eaten by gemsbok, jackal, hyena and porcupine alike. Dried, roasted and baked, the !Nara fruit is a delicacy for the Topnaar people who live along the lower Kuiseb river. Traditionally, !Nara oil is used after light sunburns, for wound healing and general skin protection.

The cold pressed !Nara seed oil is rich in vitamins & antioxidants and has a high omega 6 fatty content which repairs and regenerates dry, sensitive skin, leaving it nourished, balanced and toned.

STORAGE

Store in a cool, dry and well ventilated place in the original sealed container in order to minimize contamination. Keep away from heat, direct sunlight, acids, oxidizing agents and all sources of ignition.

This vegetable oil is very stable and has a shelf life of up to 2 years.

Cool temperatures may result in coagulation of the fat molecules and appearance of “ghosts” in the oil. Slow and gentle reheating of the oil allows the “ghosts” to disappear.
